CONTENTS.

2009

	Page.
FARMERS' BULLETIN 376.—GAME LAWS FOR 1909.	
Introduction	5
Legislation of 1909	6
Open seasons	18
Shipment of game	32
Sale of game	37
Limits	41
Licenses for hunting and shipping game	44
Appendix, tables showing open seasons for game under county laws	53
FARMERS' BULLETIN 377.—HARMFULNESS OF HEADACHE MIXTURES.	
Character and use of acetanilid, antipyrin, and phenacetin	3
Introduction of acetanilid, antipyrin, and phenacetin as medicines	3
Unfavorable symptoms produced	4
Objects for which these drugs are used	4
Reasons for the investigation	5
Method of investigation	5
Summary of results of investigation	6
Information furnished by physicians	6
Cases of poisoning recorded in medical literature	9
FARMERS' BULLETIN 378.—METHODS OF EXTERMINATING THE TEXAS-FEVER TICK.	
Introduction	5
Reasons for eradicating the cattle tick	5
Life history of the tick	7
Methods of eradication	10
FARMERS' BULLETIN 379.—HOG CHOLERA.	
Introduction	5
Cause of the disease	6
Symptoms of hog cholera	8
Appearance of a hog after death from hog cholera	9
Diagnosis	15
Diseases which may be mistaken for hog cholera	15
Prevention and treatment of hog cholera	18
Conclusion	22
FARMERS' BULLETIN 380.—THE LOCO-WEED DISEASE.	5
Introduction	5
Loco plants	
Poisoning by loco plants	9
Symptoms of poisoning in horses	11
Symptoms of poisoning in cattle	11
Symtoms of poisoning in sheep	12
Post-mortem appearances	12
Results of laboratory investigations	13
Treatment of locoed animals	13
Destruction of loco weeds	14
Summary	16
FARMERS' BULLETIN 381.—EXPERIMENT STATION WORK, LIV.	
Methods and cost of clearing land	5
Tobacco-improvement work	9
Calf feeding	14
Gasoline-heated colony brooders	23
Measuring acidity in cheese making and butter making	30
FARMERS' BULLETIN 382.—THE ADULTERATION OF FORAGE-PLANT SEEDS.	
Nature and forms of adulteration of seed	5
Ill effects of adulteration	6

FARMERS' BULLETIN 382—Continued. Page.
Kinds of forage-plant seeds commonly adulterated and the adulterants used 7
Forage-plant seeds and their adulterants described 15
How to test seeds for adulterants 21
Summary 23

FARMERS' BULLETIN 383.—HOW TO DESTROY ENGLISH SPARROWS.
Introduction 5
Prevention of increase 7
Methods of destruction 7

FARMERS' BULLETIN 384.—EXPERIMENT STATION WORK, LV.
Poultry manure 5
Early onions in the Southwest 6
Oleander poisoning of live stock 8
Feeding fermented cotton-seed meal to hogs 9
Wintering farm work horses 11
Alfalfa meal as a feeding stuff 12
Mangels for milch cows 14
Records of dairy herds 16
Skim-milk buttermilk 18
Whipped cream 19
Farm butter making 22
Camembert cheese making in the United States 24
Cement and concrete fence posts 29

FARMERS' BULLETIN 385.—BOYS' AND GIRLS' AGRICULTURAL CLUBS.
Introduction 5
How the work has been done in certain States 7
Assistance given by the Department of Agriculture 10
The relation of club work to rural education 11
Suggestions for the organization and work of junior agricultural clubs 13
Available publications 19

FARMERS' BULLETIN 386.—POTATO CULTURE ON IRRIGATED FARMS OF THE WEST.
Introduction 5
Preparation of the soil 5
Planting 6
Cultivation 7
Irrigation 8
Storage 9
Marketing 10
Selection of seed 10
Varieties 12
Possible yields 12
Conclusion 13

FARMERS' BULLETIN 387.—THE PRESERVATIVE TREATMENT OF FARM TIMBERS.
Introduction 5
Decay and methods of preservation 5
Prolonging the life of posts 6
Prolonging the life of shingles 17
Conclusion 19

FARMERS' BULLETIN 388.—EXPERIMENT STATION WORK, LVI.
Incompatibles in fertilizer mixtures 5
Principles of dry farming 6
Methods of seeding oats 12
Rolling *v.* harrowing winter wheat 16
Destruction of eelworms in garden and greenhouse soil 17
Pruning 19
Bean anthracnose or pod spot 21
Animal feeds for farm stock 24
Feeding the pig 25
Jelly and jelly making 29

FARMERS' BULLETIN 389.—BREAD AND BREAD MAKING.
Introduction 5
Grains and flours 8
Yeast and other leavening agencies 17

FARMERS' BULLETIN 389—Continued. Page.
Raised bread, general methods ... 21
Unleavened breads ... 27
Baking and cooling ... 28
Stale bread ... 31
Character of bread as related to the gluten of the flour ... 31
Losses of material in bread making ... 33
Imperfections in bread ... 33
Nutritive value and cost of bread ... 35
Summary ... 46

FARMERS' BULLETIN 390.—PHEASANT RAISING IN THE UNITED STATES.
Introduction ... 5
Species of pheasants ... 5
History of pheasant raising ... 11
Pheasants in field and covert ... 17
Game pheasants ... 19
Methods of propagation ... 20
Marketing pheasants ... 33
Diseases of pheasants ... 35

FARMERS' BULLETIN 391.—ECONOMICAL USE OF MEAT IN THE HOME.
Introduction ... 5
Value of meat as food ... 5
Proportion of different cuts and their relation to meat prices ... 8
Texture and flavor of meat ... 12
General methods of preparing meat for the table ... 13
Reducing the expense for meat in the diet ... 16
Methods of extending the flavor of meat ... 21
Utilizing the cheaper cuts of meat in palatable dishes ... 28
Developing and improving flavor of meat ... 35
Summary ... 40

FARMERS' BULLETIN 392.—IRRIGATION OF SUGAR BEETS.
Introduction ... 7
Scope and purpose of this bulletin ... 9
Soils and climate suited to the growing of sugar beets ... 9
Preparation of land for irrigation ... 11
Methods of irrigating ... 12
Time of irrigating ... 25
Beet culture under irrigation ... 28
Crop rotation and fertilizing ... 38
Crop failures under irrigation, and remedies ... 40
Water supply and its use ... 41
Cost of growing and the returns ... 44
Results of experiments in sugar-beet irrigation ... 45
Conclusions ... 51

FARMERS' BULLETIN 393.—HABIT-FORMING AGENTS.
Extent of importation and use ... 3
Labeling ... 4
Classes of products containing habit-forming drugs ... 4
Summary ... 18

FARMERS' BULLETIN 394.—THE USE OF WINDMILLS IN IRRIGATION IN THE SEMIARID WEST.
Introduction ... 5
Sources of water supply ... 5
Quantity of water available ... 6
Well casing ... 7
Sinking wells ... 9
Capacity of mills ... 12
Choice of tower ... 23
Erection of mills ... 24
Pumps ... 25
Reservoirs ... 28
Maintenance of mills ... 35
Crops under windmill irrigation ... 36
Windmills in use ... 36

FARMERS' BULLETIN 395.—SIXTY-DAY AND KHERSON OATS.
Introduction ... 7
The need for early oats ... 7

FARMERS' BULLETIN 395—Continued. Page.
History of Kherson and sixty-day oats ... 8
Description of Kherson and sixty-day oats ... 9
Desirable and undesirable characters ... 9
Adaptability to various sections ... 12
Results obtained by experimenters ... 13
Comparison of sixty-day and Kherson oats ... 26
Conclusions ... 27

FARMERS' BULLETIN 396.—THE MUSKRAT.
Introduction ... 7
Importance of the muskrat ... 9
Classification and distribution ... 10
Description ... 10
General habits ... 11
Destructive habits of muskrats ... 17
Economic uses of the muskrat ... 21
The muskrat as a pest ... 33
Enemies of the muskrat ... 35
Protective laws ... 35
Summary ... 37

FARMERS' BULLETIN 397.—BEES.
Introduction ... 5
Location of the apiary ... 6
Equipment in apparatus ... 8
Equipment in bees ... 11
Bee behavior ... 14
Directions for general manipulations ... 17
Spring management ... 24
Swarm management and increase ... 26
Preparation for the harvest ... 30
The production of honey ... 30
The production of wax ... 36
Preparations for wintering ... 36
Diseases and enemies ... 38
General information ... 40

FARMERS' BULLETIN 398.—FARM PRACTICE IN THE USE OF COMMERCIAL FERTILIZERS IN THE SOUTH ATLANTIC STATES.
Introduction ... 5
Factors which influence the economical use of commercial fertilizers ... 6
Farm fertilizer practice in the South Atlantic States ... 11
The fertilizing of crops ... 15
Summary ... 24

FARMERS' BULLETIN 399.—IRRIGATION OF GRAIN.
Introduction ... 3
Methods of applying water ... 4
When to irrigate ... 14
Quantity of water required ... 18
Relation of irrigation to rate of seeding ... 20
Danger of failure ... 20
Value of irrigated grain land ... 21
Cost of growing and returns ... 21

FARMERS' BULLETIN 400.—A MORE PROFITABLE CORN-PLANTING METHOD.
Introduction ... 5
Methods by which most corn is planted ... 5
The advantage of drilling ... 5
The advantage of checking ... 5
Double advantages of kernel-spaced checking ... 6
Why kernel-spaced checking should give increased yields ... 8
Kernel-spaced checking tested in comparison with the usual method ... 8
Kernel-spaced checking yields better in every case ... 11
The increased yield is net gain ... 11
Kernel-spaced checking permits cultivation without difficulty ... 12
Other advantages of kernel spacing ... 12
Present application of the advantages ... 13
Profit depends mainly on large yields to the acre ... 13
Summary ... 14
